Determining Principles for Biomedical Decision-making: 
The Work of Advisory Bodies

Professor Brenda Almond
(Emeritus Professor of Moral and Social Philosophy, University of Hull, UK
University Fellow, Hong Kong Baptist University)

Professor Brenda Almond is a member of the Human Genetics Commission, 2002-present, and was a member of the Human Fertilization and Embryology Authority, 1998-2001. In this Lecture she will talk about the work of these two UK bodies and the ways they do their work.
